

Dalila Brooks

SPOKEN WORD ARTIST

BIO

Colorfully rich with contextual landscapes, Dalila Brooks, has developed a spoken word performance offering viewers a deeply expressive body of work that explores topics of femininity, relationships and life from a woman's perspective.

Her in-depth lyrical content brings harmony to words. Spirited with intonation and rhythm, she explores the simplicity of sound, variances in tone and dialects, offering audiences a unique perspective about her growth journey.

Her love for the written word and developing stories for film, inspired her to fuse her skillset in storytelling and performance art for her community poetry workshops called, "LUV is COOL..." She is currently extending platforms, building on her experience as a theatrical production director, writer and public speaker for her solo spoken word performances.
